

Behind the scenes. Fiss.

What goes on behind the scenes at the cable car stations, and how do cable cars actually work?

The Serfaus-Fiss-Ladis region lifts the lid on these and many other mysteries. A guided tour through the trail maintenance equipment workshop provides an insight into the effort involved, and shows how skilled the cable car staff are.

In addition, the guided tour in Fiss will include a closer look at the ski storage area and the Schönjochbahn cable car, and give you a brief insight into snowmaking technology.

Afterwards we'll head for coffee & cake together, discuss, and answer your questions.
